THE IMPOSTOR WILLIAMS, -Gen. C. W. alias Dr. C. L. Williams, the imposter and swindler, has been again heard from. After leaving the Mansion House, he drove to Bladensturg and engaged board at the Washington House, kept by a widow lady, Mrs. W. H. Wood, who lost her husband by a collision on the railroad during the past year. The Doctor being always ready to soil ou the best subject to make a favorable impression, said he sympathised with her, for he came very cear losing his life by a railroad accident, and called attention to the wounds he had received by the collision, which were the same he had shown when in Alexandria to some of cur distinguished Confederate officers, when he told them he had received them in battle while a general commanding Confederate troops.

After having received every attention for two weeks he was called on for his board, when he left for Washington to collect a draft which he expected from his wife's agents in Boston, but returned after an absence of three days without the necessary funds, having had the misfortune, as he rapresented, to lose his vaiushle herse by lung fever, but had secured another horse. It is supposed the horse he had belonged to some livery stable keeper in Washington, and not having paid the hire, he had to deliver him up, and the herse he had in place of him, it is probable, he hird from another place, for he secured board during the summer with a widow lady near Falls Church on the credit of a fine team of horses and handhave carriage he had hired from Mr. Olcott, in Washington, and when he left his boarding house he gave a draft for \$125, payable at Cook's bank, in Washington, which was not paid when due. The following Mondy he lefe for Washington, and promised if he did not get the money to send Mrs. Wood the amount in coal for winter use. During his absence Mrs. Wood received information as to the character of her boarders, and had determined to sitach his horse and buggy when he returned, but the General was too sharp to be caught. He did not return until the Sunday following, when he walked, as he said, from Wasdington, leaving his baggy in that city, and left soon after, having made arrangements with his wife to leave at a convenient time, which she did the day after; going out to take a walk, lost her way pied was found a card purporting to have been his wife if desirable. All will be done to contribute to your comfort. Answer. 826-12 h. arrived this morning and all hands are busy opposite the public reservation." This cird, it is supposed, was left as a decay, for Mrs. Sherman was called on, and she stated that the The Loices.—Dealham's Seatch Double Faced Dector did not apply for heard, and was not Llama wool Overcoats.

NEW YORK, Nov. 20.—The report of the yellow fever commission, composed of Drs. Bemis, Cochran and Howard, who, together with Col. T. S. Hardee, sanitary engiceer, who have been investigating the epidemic in all the dealer c'aims, that having rented the space he fever stricken cities of the South, states that a sufficient amount of testimony was taken to justify the belief that the first cases in New Orleans, about the month of June, were brought to the city by conveyences as yet unknows; that their investigations and maps show that the fever invariably tends to range itself in groups of cases in marked contrast with the tendency of malarial fever to occur in separate disconnected cases. They say, in respect to the sanitary condition of the towns visited, we have to report the same character of neglect and violation of the laws of health common to all or nearly all the inland towns in the United States. These are neglect of drainage, inattention to deposits of fetid and refuse animal and vegetable matter, and inattention to the purity of drinking water. The commission unanimously agree is stating the following fasts in regard to their investigation up to the present time, reserving the right to introduce at any subsequent time such antagonistic facts as may be discovered.

1st. We have not in a solitary instance found case of yellow fever which we could justifiably consider as of de novo origin or indigenous to its

2nd. In respect to most of the various towns which we visited, and which were points of epidemic prevalence, the testimony showing importation was direct and convincing in its character.

3rd. The transmission of yellow fover between points separated by any considerable distances appeared to be wholly due to human intercourse. In some instances the poison was carried in the clothing or about the persons or people going from infected districts. In other instances it was conveyed in such familes as cotton bagging

or other goods of the same description.

4th. The weight of testimony is very pronounord against the further use of disinfectants. arrest the spread of yellow fever, while some of them affirm that their vapors are seriously prejudicial to the sick.

5th. Personal prophyloxis by means of drugs or other thereputic means has proved a constant failure. A respectable number of physicians think the use of small doses of quinine of some use in prevention.

6th. Quarantine established with such a de-

gree of surveilance and vigor that non-intercourse is the result, has effectually without excertion, protected its subjects from attacks of quiet and unchanged.

THE PRIMARY CAUSE OF A DISTANT SYMPTON .- Nervousness is rarely a disease in itself inherent, but is the final offspring of dysitself inherent, but is the final offspring of dyspepsia, in a majority of cases. The nervous disturbance is at first trifling, but ultimately its parent so undermines the general health, as to produce consequences very threatening to that great nervous centre, the brain. Hostetter's Stomach Bitters is the most powerful medicinal opponent of the ravages of indigestion, and protocts the nervous system from them. The tremors, the unnatural anxiety, the headaches, the sleeplessness and loss of appetito which characterizes digestive irregularity and weakness, and which are almost invariably accompanied by an uncer-We hope the police will yet detect him, for he is the most perfect imposter and sympler over heard before of such sacrifices as are made liver, are all cradicated by this matchless corwe have ever met with. AYER'S AGUE CURE is a vegetable discovery, containing neither quinine, are onic, nor any deleterious ingredient, and is an infalible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is also a superior remedy for Liver Complaints. It is an excellent tonic and preventive, as well as cure, of all complaints peculiar to malarious, marshy and miasmatic districts. It sets directly on the Liver and biliary apparatus, thus stimulating the system to a vigorous, healthy condition. For sale by E. S. Leadbeater & Bro.

MEDICINAL.

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased and Dyspepsia, Indigestion, Constipation, Herdacho, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MER-RELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown, dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking Hepatine in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises Hepatine at the same price. For sale by all Druggists. PRICE 25c and SI.

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. \$10,000 will be paid if Opium or Morphine or any preparation of Opium, Morphine or Prussic Acid can be found in the Globe Flower Cough Syrup, which has cured people who are living to-day with one remaining lung. No greater wrong can be done than to say than Consumption is incur-able. The GLORE FLOWER COUGH SYRUP will cure it when all other means have failed. Also Colds, Coughs, Asthms, Bronchitis and all diseases of the throat and lungs. Road the testimonials of the Hon. Alex. H. Stephens and others in our bookfree to all at the drug stores. Take no Troches or Lozenges for Sore Throat, when you can get Globe Flower Syrup at same price. For sale by all Druggists. PRICE 25e and \$1.

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one cure of Berofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease in a thousand is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Doctor PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrolula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.
